Integrated Disability Evaluation System (IDES) Briefing for Soldiers

Purpose of Briefing

- To provide an overview of the Integrated Disability Evaluation System (IDES) Program
- To inform Soldiers and their family members of the program

Agenda

- MEB PROCESS
- PEB PROCESS
- PDA PROCESS
- MISC INFO

Our Mission

- **To provide you and your family the best care while going through the Medical and Physical Evaluation Board Evaluation process**

- **To provide you with information that will allow you to make informed decisions throughout the MEB/PEB process**

- **To process your case in a timely and efficient manner**

DES Pilot Program

- Based on the fact that your military medical care provider has identified a potentially military unfitting medical condition(s) you are being referred to the joint DoD/DVA Disability Evaluation System (DES) process
- This is a new disability process that brings together the resources of the two departments to evaluate, following a single comprehensive medical examination, your referred medical conditions and those conditions you may claim. The process is intended to quickly deliver to you a finding regarding your fitness for continued military service and if determined to be unfit provide you with a single sourced disability rating determined by the Department of Veteran's Affairs

Integrated DES (IDES) Program

- During the IDES you will be counseled on the process and advised how you can contribute to the development of your case and what your rights and responsibilities are when presented with the results of this disability evaluation process
- The immediate benefits to you include the fact that you will NOT have to undergo examination and evaluation through two separate systems and you will experience a smoother transition to the benefits and compensation available through the DVA immediately upon separation or retirement if determined to be unfit for continued military service

- Refers you to the Physical Evaluation Board (PEB), when the findings and recommendations stipulate you do not meet retention standards or when referred by an MMRB

A Medical Board is NOT…

- A “MOS reclassification Board”
  -- reclassification is considered by the MOS/Medical Retention
  Board (MMRB) for Soldiers with P3 who meet retention standards

- You **WILL NOT** sit in front of a panel of board members.
  The MEB is an **informal** process comprised of at least **two physicians** who compile, assess, and evaluate your medical
  history to deter affected by your medical
  condition

How long does it take to complete a Medical Board?

Our goal is to complete your MEB within **100 days**. However, each case is unique and your MEB could take less or more than 100 days to complete.

MEB Process

- Your PEBLO will fill out Part 1 of the VA Form 21-0819 and schedule an initial meeting with you.
- The VA MSC will schedule a meeting with you to complete Part 2 of the form
- The MSC will forward the form to the DVA, who will schedule your Comprehensive Physical Examination
- Your PEBLO will prepare and mail the request for your Commander's Evaluation letter.
- Your PEBLO will refer you to other resources as required (e.g. Army Career and Alumni Program (ACAP), Army Wounded Warrior (AW2) Program, etc.) prior to any separation or retirement
